

## Yassine Laguel

---

CONTACT INFORMATION	Management Sciences and Information Systems Dept. Rutgers University 100 Rockafellar Road, Rutgers Business School New Brunswick, NJ 08854, USA	Phone: +1-732-374-5936 Mail: <a href="mailto:yassine.laguel@rutgers.edu">yassine.laguel@rutgers.edu</a> <a href="https://yassine-laguel.github.io">https://yassine-laguel.github.io</a>
RESEARCH INTERESTS	My interests center around optimization under uncertainty and its applications in stochastic programming and machine learning. A common thread in my research is the design and analysis of numerical algorithms to address risk in data-driven applications. I draw and extend ideas and tools from convex optimization, probability theory and numerical analysis while keeping an <i>operational</i> approach, with a balance between theoretical and practical contributions.	
ACADEMIC POSITIONS	<b>Princeton University,</b> Departmental Guest at the Center for Statistics and Machine Learning (CSML). Princeton, USA.  <b>Rutgers University,</b> Postdoctoral Associate at the Department of Management Sciences and Information Systems (MSIS), hosted by Prof. Mert Gürbüzbalaban. New Brunswick, USA.	Aug 2022 - Present  Jan 2022 - Present
EDUCATION	<b>Ph.D. in Optimization and Machine Learning,</b> Supervised by Jérôme Malick, Université Grenoble Alpes, Grenoble, France.  <b>B.S., M.S. in Computer Sciences and Applied Mathematics</b> Diplôme d'ingénieur from ENSIMAG, Grenoble France.  <b>B.S., M.S. in Mathematics</b> Master major in statistics, Université Grenoble Alpes, Grenoble, France. Degrees pursued in parallel to my diplôme d'ingénieur.	Oct 2018 - Nov 2021  Sep 2015 - Sep 2018  Sep 2015 - Sep 2018
JOURNAL PAPERS	<ul style="list-style-type: none"><li>[1] <b>Yassine Laguel</b>, Mert Gürbüzbalaban, Necdet Serhat Aybat. A risk-averse perspective on acceleration for saddle point problems (Tentative title). <i>In preparation</i>.</li><li>[2] Yu-Guan Hsieh, <b>Yassine Laguel</b>, Franck Iutzeler, Jérôme Malick. Push-pull with device sampling. <i>IEEE Transactions in Automatic Control</i>. 2022. Under review.</li><li>[3] <b>Yassine Laguel</b>, Krishna Pillutla, Jérôme Malick, Zaid Harchaoui. SOFTWARE	<b>TACO</b>	2022
	Python toolbox for chance constrained optimization. Yassine Laguel, Wim Van Ackooij, Jérôme Malick. <a href="https://yassine-laguel.github.io/taco/">https://yassine-laguel.github.io/taco/</a> .	
	<b>SPQR</b>	2020
	Python toolbox for superquantile minimization. Yassine Laguel, Jérôme Malick, Zaid Harchaoui. <a href="https://yassine-laguel.github.io/spqr/">https://yassine-laguel.github.io/spqr/</a> .	
	<b>RandomizedProgressiveHedging.jl</b>	2019
	Julia toolbox for solving multistage stochastic problems by randomized versions of the progressive hedging algorithm. Gilles Bareilles, Yassine Laguel, Dmitry Grishchenko, Franck Iutzeler, Jerome Malick	
INVITED TALKS	<b>On the acceleration/robustness trade-off for stochastic min-max problems</b>	
	• INFORMS Annual Meeting	2022
	A robust perspective on acceleration for saddle point problems <i>Talk</i> . Indianapolis, USA.	
	• International conference on continuous optimization (ICCOPT)	2022
	New perspectives on robustness via the Conditional Value at Risk. <i>Talk</i> . Lehigh, USA.	
	<b>Handling statistical heterogeneity in federated learning</b>	
	• Magnet Seminar	2022
	Federated learning with heterogeneous data: a superquantile optimization approach. <i>Talk</i> . Inria Lille, France.	
	• University of Washington Machine Learning Seminar	2022
	Convex risk measures : models, algorithms and applications in federated learning. <i>Talk</i> . Seattle, USA.	
	• Thoth Seminar	2022
	Convex risk measures : models, algorithms and applications in federated learning. <i>Talk</i> . Inria Grenoble, France.	

- Journées des Statistiques 2021  
Risk-sensitive learning for heterogeneous frameworks.  
*Talk.* Nice, France.
- Workshop on Communication Efficient Distributed Optimization 2021  
Device heterogeneity in federated learning : a superquantile approach.  
*Poster.* Online workshop.
- Federated Learning One World Seminar 2020  
Device heterogeneity in federated learning : a superquantile approach.  
*Talk.* Online Seminar.  
<https://www.youtube.com/watch?v=W-oNzU04Y8I>
- Optimization for Machine Learning Conference 2020  
Handling device heterogeneity in federated learning.  
*Poster.* Marseille, France.
- PhD. Defense** 2021  
Risk-averse optimization: models, algorithms, and applications in machine learning.  
*Talk.* Grenoble, France.
- Hidden convexity in probabilistic programming**
  - ANSI Seminar 2021  
On hidden convexity in chance constrained problems.  
*Talk.* Los Alamos, USA.
  - SMAI-MODE Conference 2020  
A DC approach for chance constraints.  
*Talk.* Saclay, France.  
<https://www.youtube.com/watch?v=KB3sV-trEy4&list>
  - International conference on continuous optimization (ICCOPT) 2019  
On the interplay between generalized concavity and chance constraints.  
*Talk.* Berlin, Germany.
- Efficient oracles for distributionally robust optimization**
  - IFDS Workshop on Distributional Robustness in Data Science 2022  
SPQR : A Toolbox for Superquantile-based Learning  
*Talk.* Seattle, USA.
  - Machine Learning and Signal Processing Conference (MLSP) 2020  
First-order optimization for superquantile-based supervised learning.  
Best student Paper Award. *Talk.* Espoo, Finland.  
<https://www.youtube.com/watch?v=JRWvWxOxRiQ>
  - ROADEF 2020  
Practical minimization of CVar-based risk functions.  
*Talk.* Montpellier, France.
  - International conference on stochastic programming (ICSP) 2019  
1<sup>st</sup>-order methods for minimization of superquantile-based risk measures.  
*Talk.* Trondheim, Norway.

## TEACHING EXPERIENCE

### Instructor

- Fundamentals of analysis and algebra. 50h.  
Grenoble INP. *Undergraduate Course.* Grenoble, France.
- Fundamentals of analysis and algebra. 50h.  
Université Grenoble Alpes. *Undergraduate Course.* Grenoble, France.
- Introduction to R. 2x30h.  
Université Grenoble Alpes. *Undergraduate Course.* Grenoble, France.
- Introduction to Python. 2x30h.  
Université Grenoble Alpes. *Graduate Course.* Grenoble, France.

	<ul style="list-style-type: none"> <li>• Convex and distributed optimization. 18h. Université Grenoble Alpes. <i>Graduate Course</i>. Grenoble, France.</li> <li>• Numerical optimization. 25h. ENSIMAG. <i>Graduate Course</i>. Grenoble, France.</li> </ul>
	<b>Guest Lecturer</b> <ul style="list-style-type: none"> <li>• Distributionally robust machine learning. 4h. University of Washington. <i>Graduate Course</i>. Seattle, USA.</li> <li>• Introduction to federated learning. 1.5h. ENSIMAG. <i>Graduate Course</i>. Grenoble, France.</li> </ul>
PROFESSIONAL SERVICE	<b>Committee Service</b> <ul style="list-style-type: none"> <li>• Founder and Organizer of the Optim &amp; ML Seminar at Rutgers University, since March 2022.</li> <li>• Founder and Organizer of GORGeous (Grenoble Optimization Reading Group), at the Université Grenoble Alpes, from Sep. 2019 to Oct. 2021. <a href="https://sites.google.com/view/gorgeous-optim/">https://sites.google.com/view/gorgeous-optim/</a></li> <li>• Jury member for the International Tournament of Young Mathematicians (ITYM). Iasi, Romania. 2012.</li> </ul> <b>Referee Service</b> <ul style="list-style-type: none"> <li>• <i>Journal of Machine Learning Research (JMLR)</i></li> <li>• <i>Mathematics of Operations Research</i></li> <li>• <i>EURO Journal on Computational Optimization</i></li> <li>• <i>Automatica</i></li> <li>• <i>Optimization</i></li> <li>• <i>Journal of Optimization Theory and Applications (JOTA)</i></li> </ul> <b>Conference Service</b> <ul style="list-style-type: none"> <li>• Program Committee : 51st International Conference on Parallel Processing (ICPP 2022).</li> <li>• Organizer of the session <i>First-order methods for min-max problems</i> at ICCOPT 2022.</li> <li>• Organizer of the session <i>First-order methods for minimax problems</i> at INFORMS 2022.</li> </ul>
PROFESSIONAL EXPERIENCE	<b>Research Internships</b> <ul style="list-style-type: none"> <li>• University of Washington, Seattle, USA. 2018 Initiated the series of works [6, 8, 10, 11].</li> <li>• EDF R&amp;D, Saclay, France. 2017. Led to the publication of the journal paper [7].</li> <li>• WeSave, Financial Startup in Paris, France. 2016 Worked on the establishment of quantitative criterion based on random correlations matrices to predict crises.</li> </ul> <b>Consulting Activity</b> 2016 <ul style="list-style-type: none"> <li>• Conception and development of a transport management software for an international firm.</li> </ul>
AWARDS	<b>Best Student Paper Award</b> 2020 Machine learning and signal processing conference (MLSP 2020). Espoo, Finland. <b>Finalist of the International Tournament of Young Mathematicians (ITYM)</b> 2012 <i>Rank : 3<sup>rd</sup></i> . Orsay, France. <b>Winner of the french tournament of young mathematicians (TFJM)</b> 2012 Saclay, France.
